

Ethiopia

Diana Bingham from Engage Now Africa and Rochelle Sellers from Hope Arising were both trained by Jastus Suchi in June 2012. They are to be implementing Stay Alive in Ethiopia. SJ

GHANA

As reported by Martin Obeng- RTC Stay Alive Director

January 2012

Organizations currently teaching Stay Alive program:

- Aburi Presbyterian Primary School
- Independence Avenue 1 & 2 Basic schools
- LEKMA schools
- Dangme West District schools

Changes in implementation plan?

Why? As I went round the schools doing my training, the question the teachers asked was WHEN should they teach the Stay Alive lessons? I had a discussion with the Director and we came out with a policy that a period be created on the Time Table as Social Clubs meetings. This is the time all are to use to teach the Stay Alive lessons. We agreed that it is a co-curriculum not extra curriculum. I hope to extend it to the other districts who do not have specific periods of teaching the lessons. Some of the teachers are lazy so they need a push.

Care for Life is currently working in 6 villages. Only four of the villages reported teaching Stay Alive in February. I am tracking the number of kids who attend Children's Club (Stay Alive is taught in Children's Club) and not the number of children alleageable to attend. The numbers will be significantly lower than last year given the new way of tracking Children's Club.

Any other information pertinent to Stay Alive activity for this current month (including pictures and a brief story about a Stay Alive student or teacher and how the program affects their lives): CFL does not start new students during the year. The students are enrolled at the beginning of the year and stay the entire year. The numbers above reflect the attendance to Stay Alive. Under “This Month” the number of students will be 0 unless the attendance is greater than the total for the “This Year” number.

In April, Stay Alive was taught in 2 of the 6 villages. There were 70 students that were taught Stay Alive in those two villages. In the Children’s Club, they worked on Vocational Training and less teaching Stay Alive. We have had some complaints that the lessons are boring, but it maybe more that many of the students had the lessons last year and ineffective teaching. I am working on getting more information.

In Namibia we are still strengthening the catholic girls hostel, we had meeting with the social worker who is in charge of all the schools in the area because of the fact that girls are on holiday from April to 29 May. We had also meeting with parents of 2 communities regarding stay alive.

Tanzania

According to Joram Mhango, Stay Alive was to be implemented in Mwanza in September 2011. To my knowledge that has not happened. Last I heard from Joram was in March 2012 when he was hoping to try to implement it at the end of that month. SJ

Uganda

I am waiting for Madinah to send in the report in the Stay Alive reporting format. SJ
